### 5. Fire Fighting Measures

## Safety Data Sheet

Report Date **26-Aug-18**

Page 2 of 4

- Extinguishing Media** : Non-combustible liquid. Use extinguishing media suitable for underlying cause of fire.
- Specific Hazards Arising from the Chemical** : Heating this product will evolve sulfur dioxide.
- Special Fire Fight Proc** : Wear a positive-pressure, self-contained breathing apparatus and full protective clothing. Use water spray to keep fire-exposed containers cool.

### 6. Accidental Release Measures

- Personal Precautions** : Keep unprotected and unnecessary personnel out of spill area.
- Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. No respirator normally required. Eyewash should be available in work area.
- Emergency Procedures** : Do not contaminate water supplies, lakes, streams, ponds, sewers or drains with spilled product.
- Methods and Materials for Containment and Cleanup** : Dike and contain spill. If uncontaminated, collect and reuse. If contaminated, absorb with an inert material, such as clay or sand. Collect and place absorbent material in chemical waste container for proper disposal. Wash spill area with water, then collect and place in same containers with absorbent.

### 7. Handling and Storage

- Precautions for Safe Handling** : Keep out of reach of children. Keep container tightly closed and do not allow water to be introduced into it. Do not contaminate water sources by cleaning of equipment or disposal of spray waste.
- Conditions for Safe Storage** : Store in a dry place. Temperatures below 25 Degrees F. will result in product crystallization. The product will readily reconstitute, however, with warmer temperatures and gentle agitation of the container.

### 8. Exposure Controls / Personal Protection

- TLV/PEL** : No TLV or PEL established for mixture.
- Appropriate Engineering Controls** : Local exhaust sufficient.
- Personal Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. No respirator normally required. Eyewash should be available in work area.
